UHV Assignment No 2

Title: Practice session to differentiate between prosperity and accumulation.

Aim: To understand prosperity vs accumulation by discussion on –
“What is meant by prosperity?. How can it be ascertained? Does accumulation ensure prosperity?”

What is meant by prosperity ?. How can it be ascertained? Does accumulation ensure prosperity?

The feeling of having or making available more than required physical facilities is prosperity. Almost all of us feel that wealth alone means prosperity and try to explain this phenomenon on this nonexistent or half fact. We are trying to achieve happiness and prosperity by maximizing accumulation and consumption of physical facilities. It is becoming anti-ecological and anti-people, and threatening the human survival itself. We can be prosperous only if there is a limit to the need for physical facilities. If there is no limit what so ever be the availability the feeling of prosperity cannot be assured. Wealth is a physical thing. It means having money, or having a lot of physical facilities or both. This is a very important distinction. We mostly fail to make this distinction today. We keep working for wealth, without realizing that the basic desire is for the feeling of prosperity, to have a feeling of having enough. Prosperity is more acceptable to us because wealth is just a part of prosperity. We are

trying to achieve happiness and prosperity by maximizing accumulation and consumption of physical facilities. It is becoming anti-ecological and anti-people, and threatening the human survival itself. A person has lot of money, but does not want to share even a bit of it. The person 'has wealth' but feels 'deprived'. If one felt prosperous he/she would have shared what one has, since there is lot more than enough wealth anyway.
